

# Drilling Activities on Kenna-Elida Structure

## Drilling Operations Have Actually Commenced The Great Western Oil & Refg. Co. Have Started After the Liquid Treasure Geologists Tell Us We Will Open Up A Big Oil and Gas Field

The Great Western was organized for the purpose of drilling and producing oil in the State of New Mexico. The way to make fortunes in oil is to drill for oil, and the only way to get oil and big fortunes in oil, is to STRIKE oil.

The driller and his crew are already on the ground, rigging up and will start to MAKING HOLE very soon. The Great Western proposes to drill this test well on the Kenna structure to a depth sufficient to make it a real test for oil and gas and our Geologist predicts that we will find both oil and gas on this very structure and in this particular well.

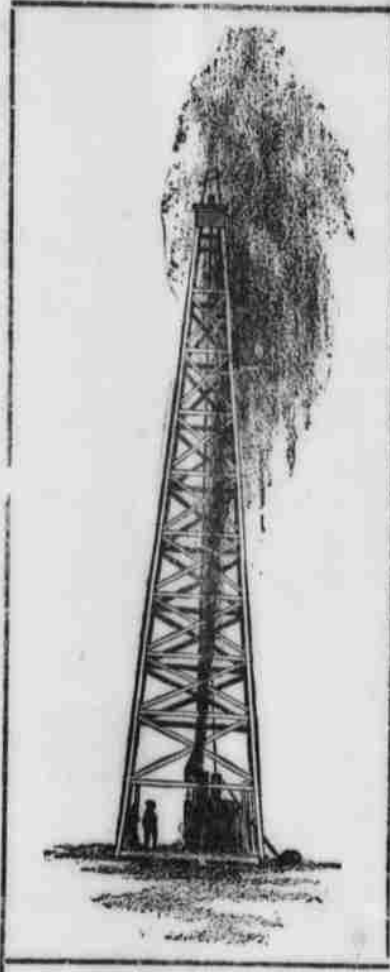

### Our Vast Holdings

With our big block of nearly 40,000 acres at Kenna, N. M., and with our large tract of 5,000 acres on the structure at Taiban, N. M., together with recently acquired block of 10 acres in the Northwest extension of the great Burkbur-nett Pool, where big wells are coming in almost daily, this should put the Great Western in the class of Big Dividend paying companies.

You can help us drill this deep test well, and you can share in the profits, either by buying lease tracts near the drilling or by buying shares which still are selling at the par value of \$1.00 each.

### We Are a New Mexico Company

Now is the time to get in with the Great Western. Throngs of buyers are passing compliments on the possibilities of great returns from an investment in this company. Let this be a tip for you! Send in NOW, TODAY

the share coupon filled out for all that you can invest, and watch the BIG BIT, BITE its way down to the liquid treasure, and then share in the profits.

### Or Perhaps You Would Rather Own Leases

If so LISTEN. We do not hesitate to say that we have one of the best five acre lease propositions that a man can buy in the next great oil fields in New Mexico. You can secure five, ten, twenty or more acres from a distance of a mile and a half up to within six hundred yards of the well at low prices, but they are commencing to advance in price now that drilling operations have begun.

Write for plat of acreage, or call at our office in Clovis at the old Gurley Broom Corn office.

Send in at once applications for shares at one dollar par value (no stockholders' liability), ask anyone about us, they all know us, we are just home people developing home oil fields. Join us now before it is too late.

Application Blank Par Value \$1.00 Per Share  
Great Western Oil & Refining Co., Clovis, New Mexico.  
(No Stockholders' Liability)

#### NEW FURNITURE STORE

R. M. Bishop and H. Bell have formed a partnership and will engage in the furniture business. They will open for business about September 1st, in the building now occupied by the Sasser harness and shoe shop, next door to Robinson's Studio.

#### USES AIRPLANE FOR HUNTING MOONSHINERS

Montgomery, Ala., Aug. 13.—Use of airplanes in locating illicit distilleries in the Alabama mountains was

inaugurated today, Deputy Marshall J. A. Wall, making a trip over the surrounding territory. He announced later he expected several arrests to follow.

#### SHIPPING BEAR GRASS

The Masterson Mercantile this week shipped fifteen car loads of bear grass to St. Louis. Most of this was bought from the farmers during last winter and early spring.

If its news The News wants it. Phone us. No. 97.

#### ANOTHER GOOD YIELD

J. M. Teague has just finished marketing the wheat from his place seven miles north of Clovis. Mr. Teague had in 142 acres and the average yield was 22 bushels to the acre. His wheat weighed 61 lbs to the bushel, was graded as No. 1 and sold in Clovis for \$2.05 per bushel. Mr. Teague says very little wheat in this section has tested as high as No. 1 and he accounts for the excellent grade of his wheat by the fact that he treated his seed for smut. Mr. Teague says there was no smut in his wheat with the exception of a very small patch and in this very patch he neglected to plant treated seed.

#### HOME FROM MARKET

A. Mandell returned the latter part of last week from the eastern markets where he has been for the past month buying new goods for the Mandell store. Mr. Mandell says business is humming in the east with every preparation for the greatest fall and winter trade the country has ever seen.

#### A MISSIONARY MEETING

The C. W. B. M. of the Christian Church met last Wednesday at the home of Mrs. E. W. Reagan, with seventeen members and seven visitors present. The meeting was called to order by the president, Mrs. Elizabeth Clark Grismore, and after a short devotional service and some lengthy discussions for getting the work well planned for the coming year, the meeting was turned over to the leader, Mrs. Pryor, who had arranged a most interesting lesson program, the subject being: "Our Mountain Neighbors." Mrs. Lee Coy in her pleasing manner delighted the society with a number of selections at the piano and Mrs. McCarty deserves special mention for the splendid way in which she gave a review on "My Mountain People." After the program the guests enjoyed a social hour at which time a surprise miscellaneous shower was given Mrs. J. H. Shepard, who had been the president the past year and who had been an untiring worker in this department, but who was soon to leave for Mineral Wells for her future home. At the close, refreshments, consisting of ice cream and cake, were served.

#### ANDREW CARNEGIE

DEAD; AGED 84

Lenox, Mass., Aug. 11.—Death has won the race against Andrew Carnegie's hope to give away all his millions in his last days. The veteran steel manufacturer died at 7 a. m. today at his summer home, "Shadow Brook." The cause of his death was bronchial pneumonia.

Carnegie retired in 1902 after amassing a fortune of nearly half a billion dollars. He then expressed his great hope that he would be able to die poor and began giving away his fortune by the millions. In the past seventeen years he has given at the rate of nearly \$21,000,000 yearly, making the total \$350,695,653.

But Carnegie still has a few millions and died a rich man.

#### Principal Events of Life

1837—Nov. 26, Born in Dunfermline, Scotland.

1848—Arrived in America. Finally settled in Pittsburgh.

1848—Obtained his first job, that of bobbin boy in factory at \$1.50 a week.

1851—Messenger boy with telegraph company at \$2.50 a week.

1852-1855—Entered employ of Pennsylvania Railroad; rose in service, made initial investments, for which he mortgaged house, and aided in Civil War.

1868—Went to England on business trip and brought back Bessemer process for making steel.

1870-1899—Acquired more and more mills and grew wealthy fast.

1887—Married Miss Louise Whitfield of New York.

1897—Daughter born.

1901—Sold out interests for \$460,000,000 in bonds to United States Steel Corporation.

1902-1919—Gave away fortune at rate of \$25,000,000 a year.

#### His Creed for Success

A penny saved is a penny earned. Be your own employer. The man who hires makes the money; the hired man doesn't.

Industry and natural ability make up for a college education. If you have these and use them, you don't need a college training.

I owe everything I have to my mother and wife.

Read frequently. It will aid you immeasurably in forging ahead.

#### WILL VETO DAYLIGHT

#### SAVING REPEAL BILL

Washington, Aug. 13.—President Wilson, it was said today, will veto the law proposing repeal of the daylight savings act. The measure has been before the president since August 5 and he is expected to return it to congress before the end of the week.

Efforts to pass the agricultural bill with its repeal rider over the president's veto failed last month and leaders in both house and senate doubt that the two-thirds majority necessary to pass the repeal law over the executive's head can be mustered.

Wanted, an editor who can read, write and argue politics, and at the same time be religious, funny, scientific and historical at will, write to please everybody, know everything without asking or being told, always having something good to say about everybody else, live on wind and make more money than enemies. For such a man a good opening will be made (in the graveyard). He is too good to live.—Macclennh (Fla.) Standard.

"Six days shalt thou labor and do all of thy work." It's vice versa now. A great many rest six and work all day on the seventh figuring out how to get out of next week's work.—Copper City Advance.

—Wm. S. Hart and Mrs. Charlie Chaplin in "The Cold Deck," 6 reel special. Monday and Tuesday, Aug. 18-19. Matinee Monday, 9:30 a. m. 3 p. m. At the DeLuxe.

## PEACHES PEACHES

I am again calling your attention to the Peach crop of New Mexico. As I feel you don't clearly realize how important to get your peaches while they are at hand.

Why not can up enough to do you until the next crop comes on, as New Mexico don't have a crop but once in five years.

Now can't you see how important it is to get your peaches at once. I am picking full force now and they are not going to last many more days, but I will sell while they last, good hand sorted peaches at \$1.00 per bushel basket, f. o. b. Roswell, New Mexico. Buyers to return baskets to me or pay 25 cents extra. All orders must be accompanied by money order or check to pay for same. No order for less than four bushels. You will have to rush your order, as this offer only lasts until August 20th, as all my peaches will be exhausted by then.

When you read this ad you must realize this is your last chance. Address,

**GEORGE SMITH**

R 2, Box 6-3

Roswell, New Mexico.
